Vriddhi — the academic operating system for Indian colleges

WHAT IS VRIDDHI

The academic OS for Indian colleges

One role-based platform for the whole academic life-cycle — attendance to transcripts, with AI doing the heavy lifting.

THE MODULES

- Attendance
- Question bank
- Curriculum & syllabus
- Timetables
- Analytics & View 360
- Assignments & materials
- Online tests & exams
- AI paper generator
- Fees management
- Results & transcripts
- Library
- Appointments & events

Data flows from attendance to analytics — no re-keying.

Student · Faculty · HOD · Principal · Admin · Superadmin

AI ENGINE

AI that drafts. Faculty that decide.

Questions

Options, marks and step-by-step explanations — in your language.

Papers

From your question bank; print, online and bank formats; PDF export.

Grading

Rubric scores with confidence — reviewed by a human, then published.

Gemini · OpenAI · DeepSeek — fallbacks included

SIX LANGUAGES

● Kannada

● Tamil

● Telugu

● Malayalam

● Hindi

● English

WHY VRIDDHI

Why colleges switch

- **AI that saves the exam cycle**

Papers drafted in minutes; scripts graded with confidence scores; faculty confirm every step.

- **Software that speaks**

Kannada, Tamil, Telugu, Malayalam, Hindi and English — in the UI and in AI output.

- **State systems, built in**

UUCMS student import and sync; BCU pass rules; NEP-ready curriculum mapping.

- **Simple to own**

Flat per-college subscription. No per-student licensing, no heavy onboarding.

Pilot onboarding for Karnataka colleges starts 2026.

Let's grow together.

The academic operating system for Indian colleges.
